

Please let us keep this it has helped a lot due to we use to get 5 to 10 calls at all hours of the night and now we get none and I beleive that if we want something we will look and call ourselves not have somebody try and force us to try and buy something. And also look at how much the elderly get ripped off by crooked telemarketers and dont know it, at least this way they can keep this from happening. Thank you, Tim Logsdon
